INDEX OF SUBJECTS AND AUTHORS

ABBOTT, WILSON RUFFIN. The treatment of tuberculous cervical adenitis, 175

Abscess, acute lung, The treatment of, by artificial pneumothorax, 169

Acid fastness of tubercle bacilli, An investigation of the, 473

Activity, clinical, A preliminary study of, 612

Adenitis, tuberculous cervical, the treatment of, 175

Adrenalin test, The differentiation of early tuberculosis and hyperthyroidism by means of the, 109

Agricultural community, The industrial and, for arrested cases of tuberculosis, 276

Air passages, upper, The fate of bacteria introduced into the, 553

AMBERSON, J. BURNS, JR., AND PETERS, ANDREW, JR. Observations on epidemic influenza among tuberculosis patients at Loomis Sanatorium, 359

Amino-acids and ammonium salts, A study in fundamentals of nutrition of the tubercle bacillus: the utilization of some, 86

Ammonium salts, A study in fundamentals of nutrition of the tubercle bacillus: the utilization of some amino-acids and, 86

Antigens used in complement fixation tests in pulmonary tuberculosis, A comparison of various, 476

Army cantonment, Tuberculosis control in an, 39

Arrested cases of tuberculosis, The industrial and agricultural community for, 276

Artificial media, The cultivation of recently isolated and laboratory strains of human tubercle bacilli on, 461

—— pneumothorax, An unusual case of pulmonary tuberculosis terminating in spontaneous hemo-pneumothorax following, 788

—— ——, Five years' experience with, 385

Artificial pneumothorax, Rupture of the mediastinum. Report of a case during, 44

—— ——, Some common mistakes in the administration of, 403

—— ——, Spontaneous pneumothorax following, with operation and recovery, 781

—— ——, The treatment of acute lung abscess by, 169

Autopsy, Types of tuberculous lesions found at, in a military hospital, 631

Bacteria introduced into the upper air passages, The fate of, 553

BALDWIN, WILLIAM H. The present status of soldiers and draft rejects with tuberculosis, 321

BARNES, HARRY LEE. The end results of the employment of ex-patients in tuberculosis sanatoria, 491

BARUCH, SIMON. The rationale of the fresh air treatment of pulmonary tuberculosis, with a modified application of it, 413

BERGHOFF, ROBERT S. Influenza as a factor in the reactivation of quiescent and healed pulmonary tuberculosis, 370

BIESENTHAL, MAX, AND GOLDBERG, BENJAMIN. The treatment of acute lung abscess by artificial pneumothorax, 169

BLOOMFIELD, ARTHUR L. The fate of bacteria introduced into the upper air passages, 553

——, —— ——, AND MATEER, JOHN G. Changes in skin sensitiveness to tuberculin during epidemic influenza, 166

Book Review. Radio-diagnosis of pleuro-pulmonary affections, F. Barjon, 122

Bronchial artery in the guinea pig, The origin and relationships of the. Studies on tuberculous infection. V, 453

Brown, Lawrason, and Sampson, Homer L. The early roentgen diagnosis of ulcerative tuberculous colitis, 698
——, ——, Heise, Fred H., Petroff, S. A., and Sampson, Homer L. A preliminary study of clinical activity, 612
——, ——, Petroff, S. A., and Pesquera, Gilberto. Etiological studies in tuberculosis, 621

Campaign against tuberculosis, The need for a broader program in the, 268
Cantonment, army, Tuberculosis control in an, 39
Cervical adenitis, tuberculous, The treatment of, 175
Classification of laryngeal tuberculosis, The, 544
Clinical activity, A preliminary study of, 612
Cocke, Charles Hartwell. Spontaneous pneumothorax following artificial pneumothorax with operation and recovery, 781
Colitis, ulcerative tuberculous, The early roentgen diagnosis of, 698
Committee on Appraisal for the Framingham Community Health and Tuberculosis Demonstration, The report of the, 568
Complement fixation, Further observations on. Serological studies on tuberculosis. Second contribution, 683
—— —— reaction, The, as applied to tuberculosis, 129
—— —— tests in pulmonary tuberculosis, A comparison of various antigens used in, 476
Continuous injection method in the treatment of experimental tuberculosis, The. A preliminary report, 548
Control, Tuberculosis, in an army cantonment, 39
Corper, H. J. Further attempts to reduce the resistance of the guinea pig to tuberculosis. The effects of various local irritants, 605
——, ——, ——. The cultivation of recently isolated and laboratory strains of human tubercle bacilli on artificial media, 461
Corper, H. J., and Downing, E. D. Laboratory observations on the influenza epidemic in a government tuberculosis hospital, 10
Crombie, D. W., and Parfitt, C. D. Five years' experience with artificial pneumothorax, 385
Cultivation of recently isolated and laboratory strains of human tubercle bacilli on artificial media, The, 461

De Witt, Lydia M., and Lewis, Julian H. The continuous injection method in the treatment of experimental tuberculosis. A preliminary report, 548
Diagnosis of early pulmonary tuberculosis, Physical examination in the, 233
—— —— ulcerative tuberculous colitis, The early roentgen, 698
Draft rejects, The present status of soldiers and, with tuberculosis, 321
Droplets of sputum, finely divided, The production of pulmonary tuberculosis in guinea pigs by means of, 238
Downing, E. D. Types of tuberculous lesions found at autopsy in a military hospital, 631
——, ——, ——, and Corper, H. J. Laboratory observations on the influenza epidemic in a government tuberculosis hospital, 10
Duboff, William S. Tuberculous empyema, 590
Dworetzky, Julius. The classification of laryngeal tuberculosis, 544

Early pulmonary tuberculosis, Physical examination in the diagnosis of, 233
—— tuberculosis, The differentiation of, and hyperthyroidism by means of the adrenalin test, 109
Effusion, pleural, An uncommon case of, 585
Employment of ex-patients in tuberculosis sanatoria, The end results of the, 491
Empyema, Tuberculous, 590
Etiological studies in tuberculosis, 621
European nations at war, Tuberculosis among, 338

EVANS, ELIDA, AND JELLIFFE, SMITH ELY. Psychotherapy and tuberculosis, 417
Exercise, Rest and, in the treatment of pulmonary tuberculosis, 210
Experimental tracheo-bronchial node tuberculosis, A note on, together with a brief consideration of several phases of tuberculous infection suggested thereby. Studies on tuberculous infection. I. 1
—— tuberculosis, The continuous injection method in the treatment of. A preliminary report, 548
Experiments, Further, on the influence of protein intoxication on tuberculous infection in guinea pigs, 153

FISHBERG, MAURICE. Influenza and tuberculosis, 532
Framingham Community Health and Tuberculosis Demonstration, The report of the Committee on Appraisal for the, 568
Fresh air treatment of pulmonary tuberculosis, The rationale of the, with a modified application of it, 413
FUNK, ELMER H. Pulmonary syphilis, 754

GIVLER, J. P., AND YOUNG, H. C. A comparison of various antigens used in complement fixation tests in pulmonary tuberculosis, 476
GOETSCH, EMIL, AND NICHOLSON, NORMAN CLIVE. The differentiation of early tuberculosis and hyperthyroidism by means of the adrenalin test, 109
GOLDBERG, BENJAMIN, AND BIESENTHAL, MAX. The treatment of acute lung abscess by artificial pneumothorax, 169
Guinea pig, Further attempts to reduce the resistance of the, to tuberculosis. The effects of various local irritants, 605
—— ——, The origin and relationships of the bronchial artery in the. Studies on tuberculous infection, V. 453
Guinea pigs, artificial tuberculous infection of, through the respiratory tract, Further observations on the, 750
—— ——, Further experiments on the influence of protein intoxication on tuberculous infection in, 153
Guinea pigs, The production of pulmonary tuberculosis in, by means of finely divided droplets of sputum, 238

HAMMAN, LOUIS. Physical examination in the diagnosis of early pulmonary tuberculosis, 233
Healed pulmonary tuberculosis, Influenza as a factor in the reactivation of quiescent and, 370
HEISE, FRED H. The condition of patients twenty years after discharge from the Trudeau Sanatorium, 497
——, —— ——, AND KRAUSE, ALLEN K. An unusual case of pulmonary tuberculosis terminating in spontaneous hemopneumothorax following artificial pneumothorax, 788
——, —— ——, PETROFF, S. A., SAMPSON, HOMER L., AND BROWN, LAWRASON. A preliminary study of clinical activity, 612
Hemo-pneumothorax, spontaneous, following artificial pneumothorax, An unusual case of pulmonary tuberculosis terminating in, 000
HERRING, JOHN A., AND HOWK, HORACE JOHN. An uncommon case of pleural effusion, 585
Hindoo knowledge of tuberculosis, Ancient, 500
HOWK, HORACE JOHN, AND HERRING, JOHN A. An uncommon case of pleural effusion, 585
Hyperthyroidism, The differentiation of early tuberculosis and, by means of the adrenalin test, 109

Industrial and agricultural community, The, for arrested cases of tuberculosis, 276
Influenza among tuberculosis patients at Loomis Sanatorium, Observations on epidemic, 359
—— and tuberculosis, 532
—— as a factor in the reactivation of quiescent and healed pulmonary tuberculosis, 370
——, epidemic, Changes in skin sensitiveness to tuberculin during, 166

Influenza epidemic, Laboratory observations on the, in a government tuberculosis hospital, 10
——, Pulmonary sequelae following, 375

JELLIFFE, SMITH ELY, AND EVANS, ELIDA. Psychotherapy and tuberculosis, 417
JONES, R. G., AND WILSON, CHARLES A. Rupture of the mediastinum. Report of a case during artificial pneumothorax, 44

KINGHORN, HUGH M. Rest and exercise in the treatment of pulmonary tuberculosis, 210
——, —— ——. The employment of rest and exercise after tuberculous patients have returned to work, 483
KNOPF, S. ADOLPHUS. William Osler, 745
KRAUSE, ALLEN K. Studies on tuberculous infection. I. A note on experimental tracheo-bronchial node tuberculosis together with a brief consideration of several phases of tuberculous infection suggested thereby, 1
——, —— ——. The larger field in tuberculosis, 513
——, —— ——, AND HEISE, FRED H. An unusual case of pulmonary tuberculosis terminating in spontaneous hemo-pneumothorax following artificial pneumothorax, 000
——, —— ——, AND WILLIS, H. S. Further experiments on the influence of protein intoxication on tuberculous infection in guinea pigs, 153

Larger field in tuberculosis, The, 513
Laryngeal tuberculosis, The classification of, 544
LEWIS, JULIAN H., AND DE WITT, LYDIA M. The continuous injection method in the treatment of experimental tuberculosis. A preliminary report, 548
LEWIS, PAUL A. The complement fixation reaction as applied to, 129
LONG, ESMOND R. A study in fundamentals of nutrition of the tubercle bacillus: the utilization of some amino-acids and ammonium salts, 86
Loomis Sanatorium, Observations on epidemic influenza among tuberculosis patients at, 359
Lung abscess, The treatment of acute, by artificial pneumothorax, 169
Lung, rabbit's, The vascular supply of the lymphoid tissue in the. Studies on tuberculous infection. IV, 449
LYMAN, DAVID R. Presidential address. The Relationship of the State and National Associations to other agencies in the tuberculosis campaign, 257
Lymph flow, The lymphatics and, in the human lung. Studies on tuberculous infection. III, 193
Lymphatics and lymph flow, The, in the human lung. Studies on tuberculous infection. III. 193
Lymphoid tissue in the rabbit's lung, The vascular supply of the. Studies on tuberculous infection. IV, 449

MATEER, JOHN G., AND BLOOMFIELD, ARTHUR L. Changes in skin sensitiveness to tuberculin during epidemic influenza, 166
Mediastinum, Rupture of the. Report of a case during artificial pneumothorax, 44
Military hospital, Types of tuberculous lesions found at autopsy in a, 631
MILLER, JAMES ALEXANDER. Tuberculosis among European nations at war, 337
MILLER, WILLIAM SNOW. Studies on tuberculous infection. II. A description of plastic models (reconstructions) of a conglomerate tubercle and the surrounding structures in a human lung, 65
——, —— ——. Studies on tuberculous infection. III. The lymphatics and lymph flow in the human lung, 193
——, —— ——. Studies on tuberculous infection. IV. The vascular supply of the lymphoid tissue in the rabbit's lung, 449
Mistakes in the administration of artificial pneumothorax, Some common, 403
MORRIS, EVERETT. Three cases of spontaneous pneumothorax with interesting findings, 763

National Associations, The relationship of the State and, to other agencies in the tuberculosis campaign. Presidential address, 257

NICHOLSON, NORMAN CLIVE, AND GOETSCH, EMIL. The differentiation of early tuberculosis and hyperthyroidism by means of the adrenalin test, 109

Nutrition of: the tubercle bacillus, A study in fundamentals of, the utilization of some amino-acids and ammonium salts, 86

Occult tuberculosis, 665

Osler, William, 745

PALMER, GEORGE THOMAS. The need for a broader program in the campaign against tuberculosis, 268

PARFITT, C. D., AND CROMBIE, D. W. Five years' experience with artificial pneumothorax, 385

Patients twenty years after discharge from the Trudeau Sanatorium, The condition, of, 497

PATTISON, H. A. The industrial and agricultural community for arrested cases of tuberculosis, 276

PESQUERA, GILBERTO, BROWN, LAWRASON, AND PETROFF, S. A. Etiological studies in tuberculosis, 621

PETERS, ANDREW, JR., AND AMBERSON, J. BURNS, JR. Observations on epidemic influenza among tuberculosis patients at Loomis Sanatorium, 359

——, ——, ——, AND WATERS, BERTRAM H. The results of sanatorium treatment of pulmonary tuberculosis with particular reference to the therapeutic use of tuberculin, 25

PETERSEN, WILLIAM F. Ancient Hindoo knowledge of tuberculosis, 500

PETROFF, S. A. Serological studies on tuberculosis. Second contribution: further observations on complement fixation, 683

——, ——. ——, PESQUERA, GILBERTO, AND BROWN, LAWRASON. Etiological studies in tuberculosis, 621

——, ——. ——, SAMPSON, HOMER L., BROWN, LAWRASON, AND HEISE, FRED H. A preliminary study of clinical activity, 612

Physical examination in the diagnosis of early pulmonary tuberculosis, 233

Plastic models (reconstructions) of a conglomerate tubercle and the surrounding structures in a human lung, A description of. Studies on tuberculous infection. II., 65

Pleural effusion. An uncommon case of, 585

Pneumothorax, artificial, An unusual case of pulmonary tuberculosis terminating in spontaneous hemo-pneumothorax following, 788

——, ——, Five years' experience with, 385

——, ——, Rupture of the mediastinum. Report of a case during, 44

——, ——, Some common mistakes in the administration of, 403

——, ——, Spontaneous pneumothorax following, with operation and recovery, 781

Pneumothorax, Spontaneous, following artificial pneumothorax, with operation and recovery, 781

——, ——, The treatment of acute lung abscess by, 169

——, ——, Three cases of, with interesting findings, 763

Predisposing factors in pulmonary tuberculosis, A contribution to, 410

Presidential Address. The relationship of the State and National Associations to other agencies in the tuberculosis campaign, 257

Program, The need for a broader, in the campaign against tuberculosis, 268

Protein intoxication, Further experiments on the influence of, on tuberculous infection in guinea pigs, 153

Psychotherapy and tuberculosis, 417

Pulmonary sequelae following influenza, 375

Pulmonary syphilis, 754

Pulmonary tuberculosis, An unusual case of, terminating in spontaneous hemo-pneumothorax following artificial pneumothorax, 788

—— ——, complement fixation tests in, A comparison of various antigens used in, 476

—— ——, early, Physical examination in the diagnosis of, 233

Pulmonary tuberculosis in guinea pigs, The production of, by means of finely divided droplets of sputum, 238
—— ——, Influenza as a factor in the reactivation of quiescent and healed, 370
—— ——, predisposing factors in, A contribution to, 410
—— ——, Rest and exercise in the treatment of, 210
—— ——, The rationale of the fresh air treatment of, with a modified application of it, 413
—— ——, —— results of sanatorium treatment of, with particular reference to the therapeutic use of tuberculin, 25

Quiescent and healed pulmonary tuberculosis, Influenza as a factor in the reactivation of, 370

Rabbit's lung, The vascular supply of the lymphoid tissue in the. Studies on tuberculous infection. IV, 449
Reactivation of quiescent and healed pulmonary tuberculosis, Influenza as a factor in, 370
Report of the Committee on Appraisal for the Framingham Community Health and Tuberculosis Demonstration, The, 568
Resistance, Further attempts to reduce the, of the guinea pig to tuberculosis. The effects of various local irritants, 605
Respiratory tract, Further observations on the artificial tuberculous infection of guinea pigs through the, 000
Rest and exercise in the treatment of pulmonary tuberculosis, 210
—— —— ——, The employment of, after tuberculous patients have returned to work, 483
Roentgen diagnosis of ulcerative tuberculous colitis, The early, 698
Rogers, J. B. Further observations on the artificial tuberculous infection of guinea pigs through the respiratory tract, 750
——, ——. ——. The production of pulmonary tuberculosis in guinea pigs by means of finely divided droplets of sputum, 238
Sampson, Homer L., and Brown, Lawrason. The early roentgen diagnosis of ulcerative tuberculous colitis, 698
——, —— ——., Brown, Lawrason, Heise, Fred H., and Petroff, S. A. A preliminary study of clinical activity, 612
Sanatoria, The end results of the employment of ex-patients in tuberculosis, 491
Sanatorium treatment of pulmonary tuberculosis, The results of, with particular reference to the therapeutic use of tuberculin, 25
Sensitiveness to tuberculin, skin, Changes in, during epidemic influenza, 166
Sequelae, Pulmonary, following influenza, 375
Serological studies on tuberculosis. Second contribution: further observations on complement fixation, 683
Sewall, Henry. Occult tuberculosis, 665
Shaw, Frederick W. A contribution to predisposing factors in pulmonary tuberculosis, 410
Shortle, A. G. Some common mistakes in the administration of artificial pneumothorax, 403
Skin sensitiveness to tuberculin, Changes in, during epidemic influenza, 166
Soldiers, The present status of, and draft rejects with tuberculosis, 321
Spontaneous pneumothorax with interesting findings, Three cases of, 763
Sputum, finely divided droplets of, The production of pulmonary tuberculosis in guinea pigs by means of, 238
State and National Associations, The relationship of the, to other agencies in the tuberculosis campaign. Presidential address, 257
Studies, Etiological, in tuberculosis, 621
Studies on tuberculous infection. I. A note on experimental tracheobronchial node tuberculosis together with a brief consideration of several phases of tuberculous infection suggested thereby, 1
—— —— —— ——. II. A description of plastic models (reconstructions) of a conglomerate tubercle and the surrounding structures in a human lung, 65

Studies on tuberculous infection. III. The lymphatics and lymph flow in the human lung, 193
—— —— —— ——. IV. The vascular supply of the lymphoid tissue in the rabbit's lung, 449
—— —— —— ——. V. The origin and relationships of the bronchial artery in the guinea pig, 453
Study of clinical activity, A preliminary, 612
SUYENAGA, B. An investigation of the acid fastness of tubercle bacilli, 473
Syphilis, Pulmonary, 754

TEWKSBURY, W. D. Pulmonary sequelae following influenza, 375
Tracheo-bronchial node tuberculosis, experimental, A note on, together with a brief consideration of several phases of tuberculous infection suggested thereby. Studies on tuberculous infection. I, 1
Treatment, fresh air, of pulmonary tuberculosis, The rationale of the, with a modified application of it, 413
—— of acute lung abscess, The, by artificial pneumothorax, 169
—— —— experimental tuberculosis, The continuous injection method in the. A preliminary report, 548
—— —— pulmonary tuberculosis, Rest and exercise in the, 210
—— —— —— ——, sanatorium, The results of, with particular reference to the therapeutic use of tuberculin, 25
—— —— tuberculous cervical adenitis, The, 175
Trudeau Sanatorium, The condition of patients twenty years after discharge from the, 497
Tubercle, A description of plastic models (reconstructions) of a conglomerate, and the surrounding structures in a human lung. Studies on tuberculous infection. II., 65
Tubercle bacilli, An investigation of the acid fastness of, 473
—— ——, human, The cultivation of recently isolated and laboratory strains of, on artificial media, 461
—— bacillus, A study in fundamentals of nutrition of: the utilization of some amino-acids and ammonium salts, 86
Tuberculin, Changes in skin sensitiveness to, during epidemic influenza, 166
——, therapeutic use of, The results of sanatorium treatment of pulmonary tuberculosis with particular reference to the, 25
Tuberculosis among European nations at war, 338
——, Ancient Hindoo knowledge of, 500
——, arrested cases of, The industrial and agricultural community for, 276
—— campaign, The relationship of the State and National Associations to other agencies in the. Presidential address, 257
—— control in an army cantonment, 39
——, early pulmonary, Physical examination in the diagnosis of, 233
——, ——, The differentiation of, and hyperthyroidism by means of the adrenalin test, 109
——, Etiological studies in, 621
——, experimental, The continuous injection method in the treatment of. A preliminary report, 548
——, —— tracheobronchial node, A note on, together with a brief consideration of several phases of tuberculous infection suggested thereby. Studies on tuberculous infection. I, 1
——, Further attempts to reduce the resistance of the guinea pig to. The effects of various local irritants, 605
——, Influenza and, 532
——, laryngeal, The classification of, 544
——, Occult, 665
—— patients at Loomis Sanatorium, Observations on epidemic influenza among, 359
——Psychotherapy and, 417
——, pulmonary, A comparison of various antigens used in complement fixation tests in, 476
——, ——, A contribution to predisposing factors in, 410
——, ——, An unusual case of, terminating in spontaneous hemo-pneumothorax following artificial pneumothorax, 788
——, ——, in guinea pigs, The production of, by means of finely divided droplets of sputum, 238

Tuberculosis, pulmonary, Influenza as a factor in the reactivation of quiescent and healed, 370
——, ——, Rest and exercise in the treatment of, 210
——, ——, The rationale of the fresh air treatment of, with a modified application of it, 413
——, ——, The results of sanatorium treatment of, with particular reference to the therapeutic use of tuberculin, 25
——, Serological studies on. Second contribution: further observations on complement fixation, 683
——, The complement fixation reaction as applied to, 129
——, The larger field in, 513
——, The need for a broader program in the campaign against, 268
——, The present status of soldiers and draft rejects with, 321
——, The war against, 118
Tuberculous cervical adenitis, The treatment of, 175
—— colitis, ulcerative, The early roentgen diagnosis of, 698
—— empyema, 590
—— infection in guinea pigs, Further experiments on the influence of protein intoxication on, 153
—— —— of guinea pigs through the respiratory tract, Further observations on the artificial,
—— ——, Studies on. I. A note on experimental tracheo-bronchial node tuberculosis together with a brief consideration of several phases of tuberculous infection suggested thereby, 1
—— ——, —— ——. II. A description of plastic models (reconstructions) of a conglomerate tubercle and the surrounding structures in a human lung, 65
Tuberculous infection, Studies on. III. The lymphatics and lymph flow in the human lung, 193
